It is stated that the cholera is assuming an opidemie form in this city to an alarming extent. At a meeting of the Health Board to be held this evening, extraordinary measures will be proposed for improving the sanitary condition of the city. In consequence of the neglect of physicians to report choicen cases, orders have been issued insisting upon their so doing. The number of deaths in the city for the past week was 771, being a decrease of 592 from the previous week. ixteen persons died of cholerant the work-house on Blackwell's island from the 27th to the 29th There were thirteen cases and four leaths officially reported yesterday. A compaitive table of three years of the cholera colden ws a smaller number of deaths yesterday than on the same day in 1849 and 1854. At the Buttery barnicks hospital matters appeared rather favorable. An injunction will be applied for to

ompel its remoyal. In Brooklyn the number of deaths for the past week was 304. The cholera has not increased, but no decrease is observable. There were fortywe deaths from cholera during the past week. The official reports of yesterday show ten new cases and four deaths. Of these, six cases were

n the county positentiary. The unofficial list shows two new cases. At Governor's Island the epidemic appears to ic a mystery, as the strictest sanitary precaution

Washington specials to the morning paper

An opinion prevails that the Bounty Equalization bill, which passed Congress on the last night of the session, will cast the Treasury several hundred million dollars. It is proper to say this opinion is based upon the bill first intrluced in the Senate by Mr. Wilson, which would have cost, two hundred to two hundred and 60 y millions. The bill finally adopted is a compro SUCARS, TEAS, COPPEES, WOLASSES, SPICES, FRUITS, nise between the above bill and the one introduced buto the House by General Schenck. The ormer provided for the payment of \$100 per year to soldiers who had served three years with a Government bounty of not more than \$160, the ounty to be deducted from the amount thus to be paid them. The latter provides for the de-duction of local instead of Government bounty. The bill as passed is estimated to cost \$75,000. COO, quite enough, but not so much as stated by Mr. Fessenden. The Paymaster General says it will take three years to examine the accounts of the wolders to whom this extra bounty is due.-The amount paid each year will, therefore, be about \$25,000,000. The claims in the new bounty bill awarding to two years soldiers who have received a bounty of \$50 a sum of \$50 more is is

Houses Demolished, Women Stripped and

red at Petroleum Centre, on Monday night, resulting in the wounding of two men, complete another, and the less of thousands of dollars' worth of property by indiscriminate pillage.
Our reporter visited the place yesterday morn

ing, and obtained the full particulars of the affair It appears that about 10 1-2 o'clock Monday nigh of the house of Madame Wood, an establishmen of rulgar and profanc expletives, which were quickly followed by a volley of stones, thrown at the windows and doors. This lasted about ten minutes, when a missile thrown through one of the windows struck a lamp, which fell to the and set the interior in a blaze.

The crowd then rushed forward and burst open the door, entered the house and drove out the inmates. No further offensive demonstrations were made, the crowd appealing satisfied with their work. The house was little injured. It is the property of a respectable widow lady pauts under supposition that they were respectable people, and designed to keep a private

The handful of Johnson men in Meadville have cen the laughlug stock of the city for the past Since the fizzle of their "mass most log" on Friday afternoon, they have been unmer cifully quizzed and ridiculed, so that now the mention of their awkward flases touches them on

According to the terms of the call for a mass meeting, it made no difference who attended it, whether he were Democrat or Radienl—the juvitation covered everybody. For a mass meeting three or four handred at the most. Ex-Governor Johnston's address was all about the Constitu-tion and the President—that the Constitution is a more precious gift to man than the Bible, and whom the sun ever shone, the radicals in Congress are great big baggaboos, and Thaddons Stevens is their huggermugger; that the citizens of the rebel States are prodigal sons, who deserve to wen the lines and cat delicate marsels of roast from the latted calf. But the Constitution was the axis around which the speaker revolved, and however that he might go, he always kept at

The audience listened to the ex-Governor with speech, but it was a dull, unsympathizing atten-tion. They gave him little or no applicase, white at the same time there was no mark of disapprobation. After he had finished his defence of man at the other end of the avenue," the Chairman of the Committee on Resolutions read the raise, firstly, Andrew Johnson; secondly, Edgar Cowan; thirdly, William P. This an angered the orator and President of the meeting that they started for the door, utterly discouraged and disgusted at the idea of making Johnson converts n Meadville; but before leaving the room they had the privilege of listening to three rousing cheers for Thaddens Stevens and Congress.
A set of intensely radical resolutions were

Oil Telegrame Cautien ! There is a party in New York by the name Stoker, who daily sends to the producers and shippers of oil in this section a telegram, for shippers of oil in this section a teacgram, for which so much is charged per month. This tell egram is received here about three o'eldek, purporting to contain reliable market quotations from the Oil Exchange, New York. There has at various times been a discrepancy between this telegram and that received every night from the proper, if not vitally necessary, to look around Associated Press. For Instance: Yesterday and see if we cannot increase its uses and enhance Stoker's telegram read—Petroleum active at 2336 the area of its consumption. Judging from experience, the same will apply to any section of the world, as it does to the whole, for, not withstanding the assertion ande by your "Occasional" correspondent, that the truth dwells not upon Oil Creek, I fail to erceive that it works any material change in the producing interest.. Flowing wells still continue to flow, and pumps to extract gress, although, to the uninitiated, "Occasional's" letter in Mondry morning's HERALD might well convey a doubt of there being such a locality at Pionee.

The nature of the new process is to convey a bydrocarbon oil through heated reforts, to enable the gas to come in contact with hydrogen,—This produces a barge volume of smokeless fame, extremely pure and brilliant. It is unattended with anything of an explosive nature, and the heat therefrom is sufficient to produce steam as fact as coul or cock in no ordinary intrace. The only alternation made in the becareofte is the flatter, in that part of the tender in which the coal is usually deposited, of an iron cistern or lank, constructed to contain about 250 galloms of hydrogarbon oil. In order to permit of oscillation between the engine and tender, a small pipe, with a strong leathern joint, is carried from the lank to the bottom of the bre-boy, when three small reforts are fastened to place of the ordinary
